PROFESSIONAL SUMMARY

Senior Platform Engineer and DevOps Leader with 8+ years of hands-on experience designing, building, and scaling cloud-native solutions on Azure and AWS. Proven track record of driving automation, developer enablement, and Infrastructure as Code to deliver robust, maintainable systems for global organizations.

Experienced in DevOps Manager, Service Delivery Manager, Release Manager, Technical Leader, IT Systems Director and IT Manager. Long experience with UNIX & Linux systems in Enterprise and multi-client installations in DataCenters and BareMetal.

My international background (Andorra, UK, Spain) and collaborative leadership style empower teams to achieve operational excellence and continuous improvement professionally.

Over 25 years in enterprise IT across Banking, FinTech, Insurance, Consultancy, Telecoms, Healthcare, Government, Disaster Recovery, Television, Web Hosting, and Military sectors.

CORE COMPETENCIES | TECH STACK
